RIGID CORE  
GLUEDOWN  
Van Gogh

# Van Gogh Wood

The iconic Van Gogh range showcases enduring American style and performance while capturing nature in its rawest form. These stunning looks are highlighted by a variety of effects, including distressed, limed and reclaimed processes in a hardwearing 48" x 7" plank.

A selection of these gluedown visuals are available in an additional rigid core construction, giving you the visuals you want in the construction you need.

**Van Gogh Gluedown** requires familiar gluedown application methods for a secure fit. Choose our gluedown planks if you prefer to personalize your space with design strips or wish to have additional layout flexibility, in applications where sound transmission isn't a concern, or when you prefer the planks be permanently adhered to the subfloor.

**Van Gogh Rigid Core** can be installed over most existing imperfect subfloors with minimal preparation and no need for adhesive. Select rigid core in upper levels to reduce sound transfer by 22dB, over subfloors prone to moisture (up to 95% RH), and over uneven subfloors.

Salvaged Redwood **VGW101T**

## American Redwood

VGW99T | VGW100T | VGW101T

Redwoods are among the tallest and oldest trees in the world and grow along the forests on the Pacific coast, where they are exposed to saltwater air. Our design was developed from a reclaimed railroad tie made of American redwood and captures the aged beauty of the original plank.

---

Burnished Cypress **VGW96T**

## Mexican Cypress

VGW95T | VGW96T

Featuring some of the most detailed and unique designs in our Van Gogh range, our Mexican Cypress planks replicate burnt and limed finishes for a refined, sophisticated aesthetic.

---

Burnished Beech **VGW97T**

## Scottish Beech

VGW97T | VGW98T | VGW102T

Our Scottish Beech planks showcase the rich, charred tones found in smoked wood flooring. The subtle, well-balanced color variations provide a warming foundation for any décor.

French Oak **VGW85T**

## Classic

VG1-7 – VGW89T

Part of our original Van Gogh range, these planks include a variety of timeless designs, from traditional to rustic. They offer all the beauty and none of the maintenance hassles of real hardwood floors.

---

It's not just the floor you lay, but how you lay it that makes a lasting impression. We offer numerous pattern possibilities to make the most of your space. Add design strips and borders for a truly unique look.

- \*\* Produced under Licence from Flooring Industries.
- \*\*\* Subject to terms, please see our website. Full technical data is available on our website.
- \*\*\*\* Slip resistance is measured on freestanding ex-factory product. Slip resistance can be affected by many factors including but not limited to: product installation and underlayment, surface contamination, use, wear and how the product is maintained. Textural variation along the surface of the product can affect nominal values.

## Color and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in color and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask to see a larger sample of the product.
